

Extinction Rebellion asks you to join us in the fight against the Climate Emergency.

The crisis of 2020 has put us at a climate crossroads. As a country we have the choice to pursue a new society which respects and preserves life.

Rather than doubling down on our carbon spewing economy we can create new jobs and wealth in ways that sustain all life.

We are a non violent movement that seeks change through civil disobedience and disruption. There is a place in this movement for everyone.

Through our unique brand of disruption we speak truth to power and demand that governments and industry ACT NOW to avoid the worst effects of the climate crisis.

The next step is to join one of our regular workshops – “Heading For Extinction (and what to do about it)”

We acknowledge that we rebel and organise on unceded Aboriginal land. We pay respect to Elders past, present and emerging. Always was, always will be Aboriginal land.
