

"THIS IS NOT NORMAL"

- Greg Mullins, former Commissioner, Fire and Rescue NSW

**SYDNEY IS REELING AS BUSHFIRES RAVAGE THE COUNTRY'S
EAST COAST AND TOXIC AIR CHOKES OUR BELOVED CITY.**

**OUR NATION IS BURNING. WE NEED SCIENCE AND SOLUTIONS,
NOT THOUGHTS AND PRAYERS. THIS IS AN EMERGENCY.**

**AS CASUALTIES GROW AND HOMES ARE WIPED OUT, WE
CAN NO LONGER LOOK TO OUR LEADERS TO UPHOLD
THEIR MOST FUNDAMENTAL DUTY - TO KEEP US SAFE.**

Extinction Rebellion stands in solidarity with all bushfire survivors, fire-fighters, volunteers and frontline service men and women.

Today we march to grieve for those lost.

Today we march to honour the heroic firefighters working around the clock with scant resources and support.

Today we march to honour our neighbours who have suffered the unimaginable.

But tomorrow we will continue to pressure those in power to take urgent climate action and avert more tragedies.

WILL YOU JOIN US?

Extinction Rebellion is a rapidly growing global movement using non-violent, direct action and civil disobedience to compel our leaders to take meaningful action to stop the climate emergency.

**THIS IS AN
EMERGENCY.
ACT NOW.**

**JOIN US.
EVERYONE CAN
PLAY A PART.**
