

DEAR AT&T,

F*

**YOUR
FINAL
OFFER**

*** FORGET**

**THE COMPANY'S LATEST
"FINAL OFFER" WAS MADE
TO DIVIDE US.**

The company's Chief Negotiator has repeatedly said "We have no interest in job security." So it's no surprise the company's phony pledge on job security doesn't prevent them from closing your store or call center and offering you a job in Nome, Alaska!

They can brag about their 2% wage hike and signing bonus all they want, but that will do little good if they can ship even more of our jobs to the Philippines, and won't do much good if they can close our store and open up a low wage authorized dealer store.

We can't eat their rhetoric.

CWA

IN AT&T'S OFFER THERE IS:

- ✗ ZERO mention of outsourcing
- ✗ ZERO resolution of job protections around store closings
- ✗ ZERO mention of curbs on contracting out our technical work
- ✗ No mention of their sick leave policy
- ✗ No EWP fix
- ✗ No vacation time fix
- ✗ No observation language protections
- ✗ No scheduling language fix
- ✗ No exchange time fix
- ✗ No inclement weather or safety language fix
- ✗ No holiday language fix. You get the idea...

We ask that all members ask their managers to tell AT&T to talk with us at the bargaining table and stop with the misleading propaganda!
