PETITION: Safe Staffing Laws for Patient Safety!

Patient care in PA is in crisis. With less nurses, less ancillary staff, more patients, sicker patients, more paperwork, and record-high levels of burnout and turnover - now more than ever, it is impossible for nurses to provide quality care. It's not safe for our patients, and we're not ready to risk our licences or your loved ones' lives. I want my legislator to recognize this crisis, support laws for safe staffing ratios (HB 1500/SB 214) and transparency (HB 833/SB 336), and give nurses & patients the respect we deserve.

First Name*	**Last Name***	**LPN, RN, or other?**	**Street Address*** (so we can identify your state legislator)	**Zip***	**Cell Phone***	**Email***
