

## Mandatory Stand-Up Talk: All Employees July 10, 2020

## **Pivoting For Our Future**

- The Postal Service has a long history of service to the nation, and we take pride in our ability to deliver mail and packages efficiently, timely, and safely.
- Right now, we are at a critical juncture in our organization and must make immediate, lasting, and impactful changes in our operations and in our culture.
- This operational pivot is long overdue and today, we are talking about the first step in a journey we must take together, for the health and stability of the Postal Service.
- Every single employee will receive this information, no matter what job they perform, so
  remember that YOU are an integral part of the success we will have again, by working
  together.
- The initial step in our pivot is targeted on transportation and the soaring costs we incur, due to late trips and extra trips, which costs the organization somewhere around \$200 million in added expenses.
- The shifts are simple, but they will be challenging, as we seek to change our culture and move away from past practices previously used.
- Specific examples of transportation changes being implemented immediately (today):
- ✓ All operations must meet our 24-hour clock commitment
- All trips will depart on time (Network, Plant and Delivery); late trips are no longer authorized or accepted
- ✓ Extra trips are no longer authorized or accepted
- ✓ There must be proper annotation in the scanner, if a Contractor Failure occurs
- ✓ All PVS/HCR drivers must be notified that trips depart on time.
- ✓ Function 4 must start on time and end on time and we must make scheduled DUT
- ✓ Carriers must begin on time, leave for the street on time, and return on time
- Carriers must make the final dispatch of value; no additional transportation will be authorized to dispatch mail to the Plant after the intended dispatch
- ✓ The right mail must go on the right truck every time
- ✓ ALL EMPLOYEES have an essential role with trips departing on time.
- One aspect of these changes that may be difficult for employees is that temporarily we may see mail left behind or mail on the workroom floor or docks (in P&DCs), which is not typical.
- We will address root causes of these delays and adjust the very next day.
- Any mail left behind must be properly reported, and employees should ensure this action is taken with integrity and accuracy.

- As we adjust to the ongoing pivot, which will have a number of phases, we know that
  operations will begin to run more efficiently and that delayed mail volumes will soon
  shrink significantly.
- More information will be shared as we fully and swiftly implement these strategies.
- You play a direct role in the success of the Postal Service, and your cooperation and teamwork are appreciated.
- This is a critical time for us, when decisive, quick, and meaningful action is needed.
- This operational pivot will ensure we can secure our future as a world-class service provider, improving our performance to fulfill our core mission of service to our customers.
- Thank you for your support and your teamwork.
