

Hello Brothers & Sisters,

One of the challenges our local has faced due to the complex nature of our dispersed membership, is how to communicate efficiently with you all.

As it stands, we have over 1100 members in 5 states, 125 locations, servicing 5 bargaining units, represented by 4 different companies.

Since I have taken over as your president, creating new and better platforms to better serve you is something that has been very important to me.

We have come a long way from faxing updates to retail store locations, having a website with updated info, to creating both a public and private Facebook page for everyone to follow etc.

But I am always looking for new and improved methods to continue to give this membership other ways of communication.

Today I am proud to share that the local has partnered with an app company called "Union Strong". To create our very own app for all of your smart phone and android devices.

Simply text cwa81408 to 471-77 or got to <https://unionstrong.app.link/cwa81408> and you will be brought directly to the local's new app, where at no cost to you, and a basic registration, you will get all the locals updated information, alerts, events and more at your fingertips.

I hope I can count everyone to download the app right away as it is active right now.

In Unity
