OLDER CITIZENS • More flexible, more frequent public transport which older people can rely on • Better care and support services • Day care options at community hubs

LOCAL BUSINESSES • Help local businesses recover from the effects of COVID 19 and Brexit • Help make East Sussex businesses more sustainable • Investment in green technologies to generate local jobs and long-term income

CLOSER COMMUNITIES • High-speed broadband for all • Community hubs to bring together people of all ages, with libraries, day support, play, health checks, classes, coffee and chat • Better mental health support

If elected, Dominic will work with councillors from other parties to protect services and the environment for everyone.

Dominic says:

“I want the county council to start taking the climate crisis seriously. ‘Business as usual’ is not sustainable. I’d like to see more trees planted in and around Rye. And I want more footpaths and cycleways, including the long-awaited Rye Greenway.”

YOUR CHOICE IN THE COUNTY ELECTION

<p>Dominic Manning The Green Party ENERGY & A FRESH APPROACH</p> 	
<p>The Conservative Party MORE OF THE SAME OLD SAME OLD</p>	

Although the Conservatives *won less than half of the votes* in the last county elections, they hold 30 out of the 50 seats. This gives them the power to make decisions without considering all the different points of view.

Electing Green councillors will provide much-needed **balance** to East Sussex county council. **Dominic will make sure the county council considers the views of everybody.**
