

# Green Party

CHIPPENHAM, DEVIZES & NORTH WILTSHIRE

## OUR CLIMATE MANIFESTO

We believe that social and environmental justice go hand-in-hand with climate justice. We demand real action – no more greenwashing and no more business as usual.

These are our top ten actions to deliver a sustainable future for Wiltshire:

- 1 Improve air quality: put freight on the rails to reduce heavy goods traffic through our villages. Say NO to the Westbury incinerator.
- 2 Reduce congestion: deliver fast broadband for all to support remote working.
- 3 Encourage active travel: build a network of safe cycle paths, improve and connect public byways and bridlepaths.
- 4 Preserve our rural character: put a stop to unnecessary new road building.
- 5 Reduce domestic energy use: insulate all existing homes to a high standard.
- 6 Create a sustainable future: build energy efficiency into all new homes.
- 7 Protect Wiltshire's countryside: build on brownfield sites, not our green spaces.
- 8 Preserve our natural resources: advocate for sustainable, regenerative farming.
- 9 Connect locals with the land: support community food-growing projects.
- 10 Promote biodiversity: encourage rewilding and reforestation.
