

We are Ready to Rebuild!

Transformational infrastructure bill passes in the House and heads to the President's desk with a [bipartisan vote of 228-206](#). ([usw.to/3xx](#))

Late Friday night, the U.S. House passed the Infrastructure Investment and Jobs Act (H.R. 3684). This monumental bill paves the way for a once-in-a-generation opportunity to rebuild our nation's infrastructure.

The bill combines [\\$550 billion of boosted infrastructure spending](#) ([usw.to/RRFall2021](#)) that will create and sustain Steelworker jobs with \$450 billion of regular spending. That kind of investment is a gamechanger for members all over the nation who supply our country.

We couldn't have gotten this done without you. USW members play an integral role in supplying our nation with the goods and services that are needed to thrive, and who better to tell that story than you. Your calls, letters, and postcards to lawmakers all across the country telling them how YOU Supply America helped get this bill over the finish line.

THANK YOU!

The work we do in Rapid Response is always centered around our core values. When we talk about investing in our nation's infrastructure, it's both an economic issue that impacts our workplaces and a job security issue that impacts our future – this is why it has taken center stage for our union. This is a once in a lifetime chance to invest in ourselves and we should all be very proud of this win!

Our eyes are now on the passage of the [Build Back Better Act \(H.R. 5376\)](#). ([usw.to/3xr](#))
Stay tuned for ways you can get involved!
