

BROADLAND GREEN PARTY

GREEN NEWS

LINGWOOD & BURLINGHAM

**Jess Royal - Green Party Candidate
for Lingwood & Burlingham**

Winter 2023

Lingwood, Burlingham Green, North and South Burlingham

Time for a fresh view and a fresh face representing local issues

Decisions made by our elected representatives have a major impact on our communities. We need more representation from young people on our local council as they are the voice of future generations. Jess Royal is a young mum, concerned about our future and that of our children, keen to work for a healthy environment, accessible and affordable essential services and a transition to a green economy that works for all.

Affordable housing?

Large scale housing developments built on our countryside do not provide sufficient affordable housing for young families. We need policies that offer affordable housing on a scale that is sensitive to our rural setting.

Will you be able to vote in future elections?

The government has changed the rules on voting in England. If you want to vote in person at a polling station you will be required to show an acceptable form of photo ID such as a passport, UK photo driving licence, Blue Badge or an Older or Disabled Person's Bus Pass. If you do not have an acceptable form of photo ID you can apply online for a free Voter Authority Certificate (VAC). **Please note that Student ID cards do not count.** View the list at electoralcommission.org.uk/voterID

**Come and meet us on Saturday 4th February at
Lingwood Village Hall: 09:30 – 11:30**

You may have questions about Photo ID, Green Party policies and what you would like to see happening in your ward. We are ready to listen so why not come along to our drop-in session and meet Jess and other Green Party members.

**Brundall Ward already has hard working and enthusiastic Green Party Councillors.
Vote Green on 4th May 2023 to get the same here!**

THE GREEN PARTY WORKING HARD FOR YOU

PRESERVING OUR GREEN SPACES

Tragic biodiversity loss must be addressed. Conserving nature, reducing carbon emissions, improving our wellbeing are supposed to be key government objectives, we are told, and yet the current planning system works against us.

Even schemes implemented to mitigate the impact of new development are often not properly maintained due to poor aftercare.

Working with parish councils, Broadland tree wardens, and landowners we are working hard to preserve existing sites and identify locations where biodiversity can be enhanced.

We will support the good work of the Parish Council in preserving existing woodland and increasing biodiversity.

Useful numbers to keep!

Jess Royal at Burlingham Woods
