

U.S. Congress: House Committee on Foreign Affairs and House Committee Appropriations /
Congreso de Estados Unidos: Comité de Relaciones Exteriores de la Cámara y Comité de
Asignaciones de la Cámara ,

1815 people have signed a petition on Action Network telling you to Tell the U.S. Congress that We Don't Want U.S. Troops in Perú / Dígale al Congreso de Estados Unidos, que no queremos tropas estadounidenses en el Perú.

Here is the petition they signed:

I urge the United States Congress to suspend all U.S. military cooperation with Peru and withdraw the 1,200 US military troops that entered the country last June. Stop sending arms and troops to the country, which only contributes to the increase in internal violence.

The foreign military presence in the coastal zone of Peru is yet another sign that there is little respect for the civilian population, which lives in an area where the police and the army carried out extrajudicial executions, multiple human rights violations, including the use of disproportionate, lethal force, as well as imprisonment of peasants and indigenous peoples, during the protests against the government of Dina Boluarte.

The government of Dina Boluarte which has emerged from the rupture of the democratic order in Peru should not continue to be strengthened and democracy should be promptly reinstated respecting the general will of the people.

Español

Insto al Congreso de Estados Unidos a que suspenda toda cooperación militar con Perú y retire las 1200 tropas militares estadounidenses que ingresaron el pasado mes de Junio en el país. Detengan el envío de armas y tropas, que sólo contribuye al aumento de la violencia interna.

La presencia militar extranjera en la zona costera de Perú es una muestra más del poco respeto que existe por la población civil, que vive en una zona donde la policía y el ejército llevaron a cabo ejecuciones extrajudiciales, múltiples violaciones de los derechos humanos, uso desproporcionado y letal de la fuerza, así como encarcelamiento de campesinos e indígenas, durante las protestas contra el gobierno de Dina Boluarte.

El gobierno de Dina Boluarte ha surgido de la ruptura del orden democrático en Perú y no debe seguir siendo fortalecido, por tanto exigimos que la democracia debe ser prontamente restablecida y respetada la voluntad general del pueblo.

In order to build a more just and positive bilateral relationship, the United States should break away from its pattern of past subversion and intervention in Peruvian society.

This has included everything from logistical support for the Peruvian Air Force's napalm-bombing in the 1964 Matsé Genocide and the 1965 suppression of the MIR-ELN guerrilla insurgency (the latter also including ostensible CIA involvement) that incurred high civilian casualties, to training military officers including General Juan Velasco Alvarado involved in the 1968 coup at institutions such as the School of the Americas (later WHINSEC), to noted political scientist Al Stepan's recruitment of disgraced Peruvian intelligence leader and death squad coordinator Vladimiro Montesinos as a CIA asset who received at least \$10 million from the agency, to extensive US military/intelligence involvement in counterinsurgency and counternarcotics operations within the framework of the "War on Drugs" (including the joint CIA-Peruvian Air Force operation that resulted in the tragic 2001 Peru shutdown of US missionary Roni Bowers and her infant daughter), to the \$35 mil. worth of USAID financial support for the Fujimori government's mass-sterilization of around 300,000 indigenous women as part of the Foncodes initiative from 1996-98, to key US figures' likely preexisting awareness of and possible involvement in the ouster of Pedro Castillo's democratically-elected administration last year.

The United States must suspend all military assistance to Peru. The bilateral agreement between the U.S. and Peru to combat illicit drug trafficking must also be reviewed in a transparent manner, and this should not become an excuse for military interference in the country.

The U.S. has caused enough chaos and trouble in Latin America, because our greedy oligarchs want to profit and suck Latin America dry. Since they own you, you politicians do what you are told.

We, the people, pay your salaries. Everything else is a bribe. WE are your boss. Out of Peru NOW, and take off restrictions from going to Cuba. It's time to stop the Cuban Batista-lovers still here in the U.S. for controlling our foreign policy on Cuba. American citizens have every right go to Cuba if they want.

War is not the answer to the issues in our world. Putting an end to the grasping for power and greed, recognizing there is enough for all, if we really want peace and dignity for every human and our earth is. War is a lazy and destructive method to achieve anything. The possible solutions are infinite but imagination, hard work and compassion must be applied. Please stop defaulting to what you know and take a chance on humanity. Thank you.

The United States must suspend all military assistance to Peru. The bilateral agreement between the U.S. and Peru to combat illicit drug trafficking must also be reviewed in a transparent manner, and this should not become an excuse for military interference in the country.

Now, the objective in Peru should be to prioritize the strengthening of democracy and the rule of law over the interests of so-called "security and defense", which only contributes to the increase of the U.S. military presence on the continent.

In Peru, a clear schedule must be established to call for new presidential elections, after the country's Congress, through an unconstitutional decision, decided to remove President Pedro Castillo and appoint Dina Boluarte as president. As it is, foreign military assistance only strengthens a government that arose from the breakdown of the democratic order in the country.

Like - our government and the CIA, et al, didn't learn a damned thing after decades of black ops and other interference throughout Central American countries in the last century that has only resulted in political upsets, civil wars, and drug cartels making living there a living nightmare? How about the massive immigration from those countries because OUR INTERFERENCE destroyed their communities and they were forced from their villages and homes just to survive? WHAT IN THE HELL IS WRONG WITH OUR GOVERNMENT??? Will we EVER LEARN that we have no business going there with our military forces? I am HIGHLY offended and pissed off beyond belief at this sheer stupidity - leaving our troops now in Peru under the guise of "remedying the drug problems" is an absolute joke and proof positive that our government (either left OR right) are too stupid to learn from our recent past egregious mistakes that has destroyed SO MANY LIVES! Wake the hell up and get our troops OUT OF PERU!

Growth of US hegemony is fear-based. It does not increase security. The tendency of the US government to partner with, be friendly toward, and/or support undemocratic leaders and states is disturbing. Some examples: weapons sales to Saudi Arabia to continue killing people in Yemen; weapons (paid for with our taxes) to Israel to continue killing Palestinians (an obvious war crime); and treating Modi like royalty in spite of his atrocious human rights violations.

Why this there support for anti-democratic states and their leaders, and support for anything warlike? Our bloated military budget is taking money that should be used to feed, house, and educate Americans.

Peace will come from reducing military funding and supporting democratic states, especially those struggling in a young democracy, and definitely without the military.

1609. Beth Davidson (ZIP code: 89450)

Do not send troops to Peru!

The objective in Peru should be to prioritize the strengthening of democracy and the rule of law over

the interests of so-called "security and defense", which only contributes to the increase of the U.S. military presence on the continent.

I demand to USA Government not to send troops and army soldiers to my country Peru for any security reason or for training the peruvian police and army, because in my country is a coup d'etat, that is not respecting the humans rights of people, the freedom to speak, the social protest and mobilizations of people around Lima and all Peru. For these reasons and others more, USA Government should stop any help or support to the Peruvian Government.
