To the Honourable the Members of the House of Assembly in Parliament Assembled:

Petition Title:	An end to change and suppression practices (conversion practices) in South Australia is needed now.	
Background:	Conversion practices occur in religious, healthcare, human services, school, community and family settings in South Australia. They have been repeatedly shown to cause extreme damage to the long-term health and happiness of LGBTQA+ people. These practices have no place in modern Australia. SARAA surveyed the LGBTIQA+ community in South Australia in 2020 and "Ending harmful and damaging conversion practices that try to change or suppress our sexuality or gender identity" was the most important issue with 85% of participants rating this as extremely or very important.	
From:	he SARAA (South Australian Rainbow Advocacy Alliance) in collaboration with mnesty International Australia.	
Request:	We call for the South Australian Government to bring an end to conversion practices in South Australia in 2024, with formal public consultation to be undertaken prior to the development of proposed legislation.
