

Oregon AFSCME Local 189  
**PRACTICE PICKETS ARE HERE**

**It's time to show the City we are serious about negotiating a Fair Contract.**

Portlanders and the Union know that the real testament to Portland's economic recovery are strong and reliable public services - like running water and the bills paid on time - services that AFSCME 189 members provide everyday.

Let's walk our talk and show City Council we are serious about a contract that protects public services and the people that provide them. Your actions make a difference at the bargaining table and we need the City to start responding to our proposals and showing us they value our work as much as Portlanders do.

**Join Us For Our First Practice Picket.**

**Wednesday October 9th, from 3:30-5:30, after work or on your own time  
Portland Water Bureau  
664 N. Tillamook**

**RSVP HERE!**

**Questions? Reach out to Bargaining or MAT members or Council Representative  
Karly Edwards**
