

Oregon AFSCME Local 189
PRACTICE PICKET

New Year. New Contract.

The City of Portland has presented their economic offer during Mediation.

Movement in negotiations happens because of you and your co-workers standing up and making your priorities clear to our Bargaining Team. We believe the City can do better to settle a contract.

The City has also shown their priorities, and are leaving behind employees who perform important work like Accountants, Office Support Specialists and Police Administrative Support Specialists - some of our lowest paid classifications.

We are united at the Bargaining Table - let's show the City we are united in the streets.

What happens next is up to you.

See the City's full comprehensive counter proposal at www.afscme189.com under "Bargaining News"
