

# It's Time You Get to Know Best Financial Insurance Agency

Meemic Insurance Company has always been exclusively focused on the educational community. In 1950, a small group of educators formed Meemic because they wanted to be sure that their colleagues received the protection they needed at rates they could afford. Meemic is a financially strong\* company that provides auto and home insurance coverage tailored exclusively to members of the educational community.

Whether you're an educator, administrator or staff, you will see that Meemic's commitment to the educational community expands far beyond insurance. In 1992, the nonprofit Meemic Foundation for the Future of Education was established to offer financial assistance through grants to educational employees and institutions. Since 2015, The Meemic Foundation has awarded over 25,000 grants to educators worth millions of dollars.

**Meemic has always been focused on the educational community and will always be there for you!**

***We look forward to serving you!
